Chapter 21

*This is the release anything that will be released with these credits~ yey~
Anyhow, this is also the last chapter of GAM that I'll be the editor for. 3829 has decided he wants to do the editing. The edits on this manga really take very little time, so, you don't need any experience to do it. He's showed me he's capable, and I've handed it off to him. From now on, releases and everything are managed by him.*
